17. ABSTRACT (MAX. 250 WORDS)

Examination of ratio of degrees granted by higher education institutions in Wisconsin to those granted in all U.S. institutions for 3-year period (1952-53 through 1954-55) to determine whether or not Wisconsin is above or below its expected attainment in various academic fields and levels of study. Expected attainment" is defined as 2.25 percent, which is population ratio of Wisconsin to United States. Findings show that Wisconsin's attainment varies with level of offering or field of study under consideration.

RESEARCH STUDY III

December, 1957

# DEGREES GRANTED BY WISCONSIN COLLEGES AND UNIVERSITIES

The ratio of degrees granted by higher educational institutions in Wisconsin to the degrees granted in all United States institutions for a three-year period (1952-3, 1953-4, and 1954-5) has been examined to determine whether or not Wisconsin is above or below its expected attainment in various academic fields and levels of study. "Expected attainment" for the purposes of this study has been defined as 2.25% which is the population ratio: Wisconsin to the United States.*

Wisconsin's attainment varies with the level of offering or field of study under consideration. Wisconsin produced 4.69% of the total doctor's degrees** during the three-year period -- more than double its expected attainment of 2.25%. Since 99% of the degrees in this group were conferred by the University of Wisconsin, it reflects favorably on the high quality of work offered at that institution. The University of Wisconsin has consistently led the nation in the number of Ph.D's granted by a single institution. On the other hand, the state has not maintained its relative position in the preparation of candidates for the master's degree and the bachelor's degree.*** During the three-year period, Wisconsin produced 1.90% of the nation's master's degrees and 2.11% of the bachelor's degrees.

* U. S. Census estimate, 1954

** Does not include first level professional degrees

*** Includes first level professional degrees in such fields as law, medicine, dentistry, and theology.

ED000426

U. S. DEPARTMENT OF HEALTH, EDUCATION AND WELFARE
Office of Education

This document has been reproduced exactly as received from the person or organization originating it. Points of view or opinions stated do not necessarily represent official Office of Education position or policy.

While Wisconsin fell below its expected attainment in the number of first- and second-level degrees conferred during the three-year period, an examination of degrees granted by academic fields indicates that in certain areas the state exceeded the 2.25%. (See Table I) In the following fields Wisconsin produced more than 2.25% of the U. S. total:

Bachelor's degrees:

| | |
|---|---|
| Agriculture | 3.16% |
| Social Sciences | 2.71% |
| Education | 2.70% |
| Home Economics | 3.06% |
| Medicine | 2.44% |
| Nursing | 2.65% |

Master's degrees:

| | |
|---|---|
| Agriculture | 6.47% |
| Biological Sciences | 4.17% |
| Physical Sciences | 2.76% |
| Social Sciences | 3.26% |
| Home Economics | 3.15% |
| Pharmacy | 6.17% |

On the other hand, despite a total production of 4.69% of all doctor's degrees in the United States, Wisconsin granted only 1.87% of the Ph.D's in education. This is quite significant in view of the state's need for trained specialists in educational administration.

TABLE I

WISCONSIN'S CONTRIBUTION TO DEGREES AWARDED IN UNITED STATES

(1952-1955)

| | Bachelor's | Master's | Doctor's |
|---|---|---|---|
| Agriculture | 3.16% | 6.47% | 14.64% |
| Biological Sciences | 1.59% | 4.17% | 7.64% |
| Physical Sciences | 2.08% | 2.76% | 3.67% |
| Social Sciences | 2.71% | 3.26% | 6.09% |
| Humanities | 2.09% | 1.34% | 3.68% |
| Education | 2.70% | 1.26% | 1.87% |
| Engineering | 2.12% | 1.74% | 3.62% |
| Commerce | 1.34% | .80% | 3.77% |
| Home Economics | 3.06% | 3.15% | 4.51% |
| Medical Sciences | | | |
| Medicine | 2.44% | 2.16% | 6.73% |
| Nursing | 2.65% | 1.39% | ---- |
| Pharmacy | 2.20% | 6.17% | 10.55% |
| Total Degrees | 2.11% | 1.90% | 4.69% |

## Specific Programs in which Wisconsin is Outstanding

While a number of general conclusions may be drawn from the analysis in Table I showing Wisconsin's relative position in the broad academic fields some mention should be made of the specific programs in which Wisconsin has far exceeded its expected attainment. From the appendix on page 9, the following programs have been singled out as deserving of special mention:

Doctor's degrees:

| | |
|---|---|
| Bacteriology | 7.67% |
| Biochemistry | 23.04% |
| Botany | 7.66% |
| Economics | 9.59% |
| Entomology | 9.19% |
| Geology | 7.80% |
| Spanish | 8.18% |
| Law | 7.37% |
| Pharmacy | 10.55% |
| Speech and Drama | 8.71% |

Master's degrees

| | |
|---|---|
| Biochemistry | 16.35% |
| Industrial Arts | 9.62% |
| Russian | 10.39% |

Bachelor's degrees

| | |
|---|---|
| Russian | 5.49% |
| Medical Sciences | 5.84% |

## Specific Programs in which Wisconsin Falls Below Expected Attainment

In evaluating the degree fields in which Wisconsin is producing less than 2.25% of the U. S. total, consideration should be given to a number of factors such as regional occupational demands, quality of offering, offerings in neighboring states, etc., before an accurate determination of the adequacy of the program can be made. The following fields of study have been chosen from the appendix as the most obvious examples:

Doctor's degrees:

| | |
|---|---|
| Music | None |
| Physical Education | None |

Master's degrees:

| | |
|---|---|
| Commerce | .80% |
| Fine Arts | .75% |
| Law | .60% |
| *Metallurgy | None |
| Public Health | None |

Bachelor's degrees:

| | |
|---|---|
| Astronomy | None |
| Dental Science | .85% |
| *Metallurgy | None |
| Public Health | None |

## Academic Programs Not Available in Wisconsin

First level degrees are not available in a Wisconsin institution in architecture, forestry, optometry, osteopathy, public health and veterinary medicine. Neighboring states have for the most part filled this vacuum, however, as indicated in Table II.

TABLE II

BACHELOR'S DEGREES IN SELECTED ACADEMIC FIELDS AWARDED BY ILLINOIS, IOWA, MICHIGAN AND MINNESOTA -- 1954-55

| | U. S. Total | Illinois | Iowa | Michigan | Minnesota |
|---|---|---|---|---|---|
| Architecture | 1581 | 109 | 28 | 93 | 22 |
| Forestry | 851 | None | 36 | 69 | 21 |
| Optometry | 519 | 109 | None | None | None |
| Osteopathy | 452 | 45 | 60 | None | None |
| Public Health | 79 | None | None | 20 | None |
| Veterinary Medicine | 844 | 31 | 56 | 66 | 87 |

* The University of Wisconsin offers a metallurgy major on all three levels, but in this study the number of degrees in this field are classified under engineering.

## Critical Areas

In view of recent world developments affecting our national security it seems appropriate to point out Wisconsin's contributions in certain critical areas -- those in which shortages are most likely to occur. In the fields shown in Table III below, it may be noted that with few exceptions (notably master's degrees in engineering) Wisconsin is above expected attainment on the graduate level and slightly below on the bachelor's level.

TABLE III

WISCONSIN'S CONTRIBUTION TO DEGREES AWARDED IN THE UNITED STATES IN CERTAIN CRITICAL AREAS (1952-55)

| | Bachelors | | Masters | | Doctors | |
|---|---|---|---|---|---|---|
| | U. S. Total | % Wisconsin | U. S. Total | % Wisconsin | U. S. Total | % Wisconsin |
| Astronomy | 43 | None | 42 | 2.38% | 49 | None |
| Chemistry | 17,654 | 2.00% | 3,482 | 2.96% | 3,017 | 4.01% |
| Engineering | 69,107 | 2.12% | 12,254 | 1.74% | 1,711 | 3.62% |
| Mathematics | 12,520 | 2.16% | 2,144 | 2.57% | 718 | 3.20% |
| *Metallurgy | 249 | --- | 184 | None | 90 | None |
| Meteorology | 255 | 2.01% | 133 | None | 20 | None |
| Physics | 5,953 | 2.02% | 2,164 | 2.59% | 1,474 | 2.44% |
| Russian | 182 | 5.49% | 77 | 0.39% | 15 | None |

* The University of Wisconsin offers a metallurgy major on all three levels, but in this study the number of degrees in this field are classified under engineering.

## Degrees Awarded by Individual Institutions

A summary of the number of degrees granted by each institution in the state is shown in Table IV for the year 1954-55. Doctor's degrees were awarded by two institutions: University of Wisconsin and Institute of Paper Chemistry. Second level degrees were awarded by six institutions: Institute of Paper Chemistry, Marquette University, Nashotah House, Stout State College, University of Wisconsin, and Wisconsin State College at Milwaukee (now University of Wisconsin--Milwaukee). First level degrees were awarded by 37 institutions.

TABLE IV

EARNED DEGREES BY WISCONSIN INSTITUTIONS -- 1954-55

| Institution | 1st Level Degree | 2nd Level Degree | Doctorate |
|---|---|---|---|
| Private Institutions: | | | |
| Alverno | 102 | | |
| Beloit | 141 | | |
